

Organizational Carbon Footprint Policy

Pinthong Industrial Park Public Company Limited (the “Company”) has established an Organizational Carbon Footprint (Carbon Footprint for Organization: CFO) Policy to measure the amount of greenhouse gas emissions and removals of the organization, and to support future actions to reduce the Company’s greenhouse gas emissions.

1. Objectives

To assess greenhouse gas emissions arising from the Company’s operations and activities, and to serve as a tool for calculating such emissions, thereby enabling the establishment of effective management approaches to reduce greenhouse gas emissions. This also includes preparing employees to develop understanding and capability in reporting greenhouse gas emissions and removals (Greenhouse Gas Reporting) of the organization in the future.

2. Scope

This Policy shall apply to all operational processes related to the Company. The assessment and compilation of greenhouse gas emissions and removals shall be conducted under the organizational control and operations (Operational Control Approach). Relevant personnel shall be responsible for collecting data and supporting evidence relating to greenhouse gas emissions and removals arising from the Company’s activities, for the purpose of assessment and preparation of the organization’s greenhouse gas reporting.

This is hereby informed for acknowledgment and strict compliance by all concerned.

This Policy shall be effective from 17 May 2022, as approved by the Board of Directors’ Meeting No. 2/2022.

- Mr. Prasan Tanprasert -
Chairman of the Board of Directors
